EDUCATION

- Bachelor of Technology in Electronics and Communication from Dr. A.P.J. Abdul Kalam Technical University (75.11%)

PROFESSIONAL CERTIFICATION

- Microsoft Certified Professional: **Programming in C#(70-483)**

WORK EXPERIENCE

EagleView	
Client	EagleView (Oct 2023 - Present)
Role	Senior Software Engineer
Environment	C#, ASP.NET, ADO.NET, MVC, GoLang, .NET Core, SQL Server, Oracle, WEB API, HTML, JavaScript, Entity Framework Core, WCF, IIS, AWS, DevOps
Responsibilities	Responsible for designing, developing, and maintaining scalable web, API, and backend applications using C#, .NET Core, ASP.NET MVC, and GoLang in a multi-stack environment. Developed and optimized database solutions using SQL Server and Oracle, implementing Entity Framework Core, ADO.NET, and ensuring high performance and data integrity. Collaborated in DevOps and AWS cloud environments, managing deployments on IIS, building RESTful Web APIs, and enhancing application performance, security, and reliability.
Lead to Cash Solution	
Client	OSN Media (May 2021 – Oct 2023)
Role	Technology Lead Analyst
Environment	C#, ASP.NET, ADO.NET, MVC, .NET Core, SQL Server, Oracle, WEB API, Angular, HTML, JavaScript, Entity Framework Core, WCF, IIS, Azure, DevOps

Responsibilities	Lead to Cash is an end-to-end business process that starts with marketing and ends with revenue collection. Responsible for developing and maintaining the Lead to Cash Web Application, ensuring security and data protection, mentoring junior developers, and creating technical documentation.
Appzone In-house Applications	
Client	Abu Dhabi Commercial Bank (Mar 2019 – May 2021)
Role	Dot Net Developer
Environment	C#, ASP.NET, ADO.NET, MVC, .NET Core, SQL Server, HTML, JavaScript, Angular, Entity Framework, Web Services, WCF, IIS, Azure, Dev Ops
Responsibilities	Collaborated with the in-house team to create web-enabled applications for ADCB Bank, driving efficient business processes. Developed and maintained web applications and services using the .NET framework. Involved in requirement analysis, troubleshooting, and providing support to peers.
AllAboutMe, Personal Card Solution	
Client	Gemalto (Dec 2017 – Mar 2019)
Role	Senior Software Developer
Environment	C#, ASP.NET, ADO.NET, HTML, CSS, JavaScript, SQL Server, Entity Framework, Data Structures, Web Services, WCF, Mercurial, IIS
Responsibilities	Worked on the AllAboutMe project, allowing users to create personalized cards online. Responsible for developing user stories, maintaining source control, participating in code reviews, and mentoring junior developers.
Command Center for Meter data management	
Client	Landis+Gyr Limited (Feb 2016 – Dec 2017)
Role	Dot Net Developer
Environment	C#, ASP.NET, ADO.NET, SQL Server, Oracle SQL Developer, WinForms, WPF, Web Services, WCF
Responsibilities	Contributed to the development of the Meter Data Management System, providing long-term data storage and management for utility companies. Involved in understanding and developing user stories, unit testing, troubleshooting, and support.
Automating Audit Framework for Windows 10	
Client	Microsoft Limited (Oct 2015 – Jan 2016)
Environment	SQL Server, Windows 8 Desktop App, WinForms, WCF, C#
Responsibilities	Configured the Audit Framework to automate data quality and readiness processes. Worked on record tracking, discrepancy detection, and elimination of manual efforts.
Library Management System	
Client	Infosys Limited (Feb 2015 – Sep 2015)
Environment	C#, ASP.NET, ADO.NET, MVC, LinQ, Entity Framework, HTML 5.0, CSS, SQL, WCF, 3-Tier Architecture, Visual Studio
Responsibilities	Updated the manual library system to an online application for efficient management. Developed functionalities for book availability, lending, member management, and administrative tasks.

Controller Workspace (Win 8 App Development)	
Client	Microsoft Limited (Sep 2014 – Jan 2015)
Environment	C#, XAML, MVVM Pattern, WPF, SQL Server, Visual Studio, Windows 8.1
Responsibilities	Contributed to enhancing the Controller Workspace application, providing financial controllers with tools to review and act on financial processes.

Health Care Management System	
Client	Infosys Limited (Apr 2014 – July 2014)
Environment	C#, ASP.NET, ADO.NET, 3-Tier Architecture, SQL Server, Visual Studio, TFS, Web Services.
Responsibilities	Developed the Health Care Management System for PROXIMA Care 'N' Cure, enabling patients and doctors to avail online facilities. Involved in requirement analysis, troubleshooting, and client interaction.
